Generalized Linear Models

Melissa Guzman
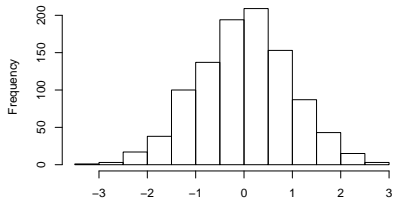

March 13, 2016

What is a frequency distribution?
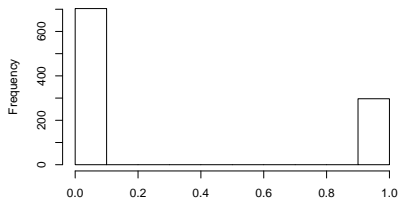

What frequency distributions can you remember?

# Frequency Distributions

Why do we care?

Relative species abundance of beetles sampled from the river
Thames collected by C.B. Williams (1964). (Magurran 2004)

Learning Objectives

- compare and categorize GLMs vs ANOVAS and regressions
- Run a model using GLMs
